**Description:**

A good old color example of Tirion's plan of New Orleans and the mouth of the Mississippi River. The map was most likely drawn from Jeffery's Plan, published 10 years earlier. Ft. Balise is shown on the River plan. One of the few obtainable plans of New Orleans from the 18th Century. A good example, with a number of small pinholes and oxidized green (now brown) coloring, but still a good example. Normally a \$1400.00 map.
