#### Description:

##### *1575 Theatrum Orbis Terrarum*

A handsome full original hand-color example of the "first modern atlas".

This edition was not printed by Anthonis Coppens van Diest, but by Aegidius Radeus of Antwerp. The text at the end has been enlarged with the *Synonymia Locorum* and treatise *De Mona druidum insula*.

Although the maps are the same as in the 1574 Latin edition, this is an entirely new edition.

#### Detailed Condition:

Folio. Expertly bound to style in full gilt-tooled calf. 70 double-page engraved mapsheets in full original color. Complete.
