Description:

Rare early edition of Du Val's map of Canada, the Great Lakes and Northeast, based upon Sanson's earlier maps of the region. Excellent example of the open ended Great Lakes to the West. Clearly shows a Northwest Passage through Hudson's Bay. Extends south to Virginia and names Florida. This is the second state of the map, with the addition of several Indian Tribal names in the West. A bit of dampstain in the upper margin, outside the neatline, but still a very nice example, from the 1661 edition of Du Val's *Le Monde Terrestre*.
