### Description:

*Cercle de Baviere* map by Alain Manesson Mallet, published in Frankfurt in 1686, is a beautifully detailed miniature map of the Bavarian region. This map provides a captivating depiction of the area, highlighting notable cities such as Ratisbonne, Passau, Munich, Salzburg, and others.

Despite its small size, the map exhibits intricate details, allowing viewers to explore the geography and layout of the region. The inclusion of these key cities provides valuable insights into the urban centers of Bavaria during the 17th century.

Alain Manesson Mallet's maps are known for their meticulousness and accuracy, and the *Cercle de Baviere* is no exception. The map's fine craftsmanship and attention to detail make it a remarkable representation of the region.

Published as part of Mallet's famous atlas, this miniature map adds to the collection of geographic
