**Description:**

Extremely rare 1859 variant edition of the Eastern Part of St. George's Sound, from the US Coast Survey.

The present example reads "Electrotype copy no. 1 by G. Mathiot, U.S.C.S."

The map covers James Island, Crooked River, Dog Island and the eastern part of St. George Island.

We note below two known editions of the chart. The present example seems to be a later variant of the 1859 edition, which among other things adds the name "James I."

OCLC locates only 1 example of this edition of the map (State Library of Florida) and 1 example of the 1858 edition (State Library of Florida).
