Description:

Atlas of Moravian Settlements

First edition of this interesting atlas covering the regions of the world with Moravian Missionary Settlements, with maps drawn by American Moravian missionary Levin Theodor Reichel and lithographed in Berlin at the establishment of Leopold Kraatz.

Born in Bethlehem, Pennsylvania and having spent most of the formative years of his life and career in Pennsylvania and North Carolina, LT Reichel created this comprehensive study of the Moravian Missions throughout the world after spending several years inspecting the West Indian Moravian mission system.

The contains 15 maps, representing all the mission areas of the Moravian Church, revised and supplemented by the missionaries in each place. The text includes statistical tables on the number of stations, mission workers, and baptized, a list of all schools maintained by the brothers, and a brief, country-organized mission chronicle.

The atlas also makes an important geographical contribution, as it offers many details generally not available through other cartographic sources.

The maps include:

- South Greenland
- Labrador
- United States of North America (3 maps on one sheet)
