### Description:

Stunning full color example of Andriveau-Goujon's map of the Western United States.

In this rare edition, the Territory of Colona appears, predating the appearance of Colorado. Similarly, an oddly misprojected Idaho appears, but is called Shoshone.

Massive Nebraska runs to the Canadian Border. Arizona is below New Mexico. Many early roads, forts and Indian Tribes noted in the west.

An exceptional clean example of this highly desirable map and essential item for Colorado, Idaho and Western collections.
