Hyetographic Or Rain Map of the World, With a Special Map of the Temperature and Rain Fall of India

Stock#: 97348
Map Maker: Johnston
Date: 1854
Place: Edinburgh
Color: Hand Colored
Condition: VG
Size: 23.4 x 19.4 inches
Price: \$ 145.00

Description:

Most of the map is stipple-engraved in greyscale, showing areas of rain worldwide, with deserts in white. Lines demarcate the limits of where snow falls and the district of monsoon rains. The Intertropical Convergence Zone is noted as receiving "almost Constant Precipitation," with "Electrical Explosions." Equatorial rains are noted as rarely happening at night. An inset map is dedicated to showing the trade winds, monsoonal seasons, and rainfall of India.

Detailed Condition:

Original hand-color. Minor soiling in margins.
