### Description:

Unusual and highly detailed map of the Alaskan Archipelago, shown in greater detail and scale than any other map. Shows the routes of Bilings in 1790-1791, and Sarytchew in 1791. Some modest soiling and spotting in the lower third of the map, but still a good example. From Vandermaelen's remarkable 6 volume atlas, which if combined as globe gores forms an immense globe. Vandermaelen accomplished the first atlas mapping of the world on a uniform scale.
