**Description:**

Striking wide margined example of this scarce map of Cuba, the Bahamas and the Southern tip of Florida.

The map provides a fine depiction of the Western Caribbean. The dating of this map runs the gamut from 1784 to 1806, but it can be reliably traced to Mentelle's Atlas Universel, published in Paris in 1798, although this example does not have the bluish hue typical of Mentelle's maps, suggesting an earlier publication date.
