**Place:** London  
**Color:** Uncolored  
**Condition:** VG  
**Size:** 18.5 x 13.5 inches  
**Price:** SOLD

### Description:

Interesting regional from the January 1746 issue of Gentleman's Magazine. Shows in detail the Eastern coast of Canada with depths in soundings. Insets of Quebec City, Fort Dauphine, the Atlantic Ocean, and a Plan of City and Port of Louisbourg appear on this chart. The Louisbourg and Quebec insets each contain a key to greater detail. Although uncolored, the cartouche is quite decorative showing a coastal battle scene. This chart was based on Bellin's original published in 1744. Trimmed by binder into neat line along left margin. Jolly Gent-40.
