Description:

Striking example of Fielding Lucas' fine work, which distinguished him as a top publisher of the era. His maps are printed on a higher quality paper than contemporary maps by Carey & Lea and demonstrate a superior engraving quality and more attractive coloring style. The detailed map is handcolored by country, showing the many islands of the West Indies, along with East Florida and parts of Central and South America. Towns, ports, waterways, and some topography appear on this map. Lucas' maps are highly desireable and increasingly scarce.
