Description:

Nice outline color example of Mathew Carey's map of North Carolina. Carey published his American Atlas in 1795, which became the first folio atlas published in America. He issued later General Atlases in 1796 and after. In 1814, he became the first American publisher to offer hand coloring. Highly detailed map, showing towns, rivers, roads, counties, colleges, mills, forts and other details. An essential map for North Carolina collectors. A fine example, with nice wide margins.
